ASIA MEHMOOD

Software Engineer | Automation & RPA Developer

Lahore, Pakistan | +92 3093481138 | asiamehmood986k@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Results-focused Software Engineer and Automation Developer with experience designing and deploying RPA and Python automation solutions that cut processing time by up to 90%. Skilled in Python, Selenium, Automation Anywhere and Microsoft Power Automate, with growing expertise in agentic AI, LLMs, LangChain and retrieval-augmented generation (RAG). BS in Computer Science, International Islamic University Islamabad.

SKILLS

Automation & RPA: Python, Automation Scripting, RPA, Automation Anywhere, Microsoft Power Automate, Selenium, Web Scraping, Email Automation (Smtplib)
Data & Libraries: Pandas, NumPy, Openpyxl, Xlwings, BeautifulSoup, Python-docx
AI & LLM: Agentic AI, LLMs (Groq), LangChain, RAG, Vector Stores, HuggingFace Embeddings, Prompt Engineering
Development: C#, .NET Core, MVC, MS SQL, PHP, Streamlit

PROFESSIONAL EXPERIENCE

Agentic AI Course Participant, University of Engineering and Technology (UET) Lahore, Lahore | 2026

- Completed a course on agentic AI covering LLM-powered applications, prompt design, structured outputs, and multi-step workflows.
- Built a RAG-based exam paper generator (LangChain, Groq, HuggingFace embeddings, Streamlit, python-docx) that creates MCQs, short and long questions with answer keys from textbook PDFs.
- Engineered an agentic AI job-matching system that parses a CV to extract skills and interests, searches LinkedIn, Remotive, We Work Remotely and other platforms, and emails ranked best-fit roles, each with a role-tailored CV.

Expert Robotics Process Automation Engineer, Jazz, Islamabad | Sep 2024 - Dec 2024

- Developed and deployed RPA workflows for finance and customer experience, reducing processing time by ~90% and cutting manual errors.
- Partnered with cross-functional teams to identify and prioritize automation opportunities, improving service delivery.

Automation Developer, Huawei, Islamabad | Dec 2022 - Sep 2024

- Built RPA and Python automation solutions; gathered requirements, collaborated with teams, and led documentation efforts.
- Automated Google workflows with Selenium for web scraping, form submissions, and data extraction; managed teams and created standardized documentation templates.

.NET Core Intern, AKSA-SDS, Islamabad | Oct 2022 - Dec 2022

- Used C# and MVC patterns with MS SQL for coding and database management; collaborated on code quality across the development lifecycle.

Admin Coordinator, TrueFix, Islamabad | Aug 2022 - Oct 2022

- Scheduled meetings, managed documents and employee records, handled client inquiries, and prepared presentations and reports.

EDUCATION

BS Computer Science (CGPA 3.53), International Islamic University Islamabad, Pakistan | 2018 - 2022

COURSES

Agentic AI (University of Engineering and Technology Lahore); Programming Fundamentals; Introduction to Database; Professional Practices; Probability & Statistics (International Islamic University Islamabad)

PROJECTS

- **AI Job Matching & CV Tailoring Agent:** Agentic AI system that parses a CV to extract skills and interests, searches LinkedIn, Remotive, We Work Remotely and other platforms, ranks jobs by fit, and emails the matches with a tailored CV for each.
- **AI Exam Paper Generator for Academies:** Streamlit app that turns a textbook PDF into a printable Word exam paper with an answer key, by chapter, page range, or topic.
- **UAE RPA from BOQ Automation:** Automated customer-specific BOQ generation for a UAE client: downloaded and consolidated DU data and BOQ documents from portals, uploaded BOQs, and synced data to the database, cutting processing to ~8-10 minutes for 10 DUIDs.
- **Live Network Monitoring Dashboard RPA:** Live network monitoring with RPA: real-time alerts for rollbacks, late completions and late starts, plus automated email reports on errors, status and violations.
- **Service Release & Drafting Tool:** Automated data gathering and link/DU-ID generation by site type for Ethiopia, cutting processing time from 1 hour to 3 minutes.
- **HomeChef Food Ordering System:** PHP-based ordering platform where home chefs showcase and sell their food, with personalized profiles and order management.
